

Response to Legal Action against Capital Christian Center and Capital Christian School

Sacramento, Calif., May 3, 2022 – We are heartbroken to learn of the reports impacting individuals who were students at Capital Christian School in the 1980s which were detailed in legal documents in April 2022.

Our heart is for the welfare of those affected, and we are praying for them as we process this news. We take seriously the institutional responsibility that follows these allegations and are working with our legal team to pursue a rightful response.

Further, we take seriously the responsibility of protecting the students that have been entrusted to our care. As such, we undertake staff background checks, provide mandated reporter trainings, sexual harassment trainings, and employ other safeguards. We are in compliance with state and federal standards regarding employee and volunteer training.

At Capital Christian School, we remain committed to our mission to empower world changers in academic excellence, athletic distinction, artistic expression, and social engagement all through a spiritual pursuit of biblical truth.
